Amen.

Amen."

Because of his age he is not a candidate for the feeding tube procedure. They've decided to release him from the hospital to hospice care as soon as they can locate a place for him since he can't go back to assisted living. Please pray for these next few days and weeks. If he survives being moved to a new place it will be very hard to be living in a separate facility from his wife. Their 72nd anniversary will be later this month.

Stephen & Susan Hurd	6/11/20	Susan and Stephen's son-in-law, Bill, is in his fifth round of chemotherapy for his recurrent brain tumor and is tolerating the treatment pretty well. Their family is having to be very cautious because he is considered vulnerable. Pray that Bill would continue to do well, the tumor would respond well to the treatment, the family would stay well, and that God would continue to work through all of the circumstances.
Greg Logwinuk, Sr.	6/10/20	Greg just had another CTscan and there is still NO sign of cancer anywhere in his body (not lungs nor liver.) The doctor now says they won't do another CTscan for 6 months (since he's had 4 in the past year that have been clear!)
Valerie Logwinuk	6/10/20	Valerie's brother-in-law Roy has essentially fully recovered. Her sister says he is playing 18 holes of golf and bike riding, and although he has not gained all his weight back, he is in good shape. Roy missed his last immunotherapy treatment for his non-Hodgkins lymphoma cancer, but his doctors are ok with that. "Oddly, he still doesn't have any antibodies for Coronavirus even though he was injected with plasma from a donor who had had Coronavirus and that plasma was the reason he recovered and lived. And yet, his body has still never generated any antibodies on its own and there are none present in his body. My sister and Roy don't know if that means he could contract the Coronavirus again. We are very thankful for these miracles of healing."
Cinda Brown	4/29/20	For Cinda's 90+ year old mother Lucy Arnold, who continues to live with increased lung issues and receives hospice care at home in Houston.

He is also still seeing patients.

Sarah DeHay & Elizabeth Boone	ongoing	Elizabeth and Sarah's mother, Carla, has suffered from very severe Early-Onset Alzheimer's for the past 10 years, and even though she is in the final stages of the disease the family is in an unknown place. Pray for their father John as he loves and cares for Carla so well, for God to strengthen his health and draw close to him and sustain him as is weary and sad. Pray the DeHay and Boone families as they continue to walk alongside and love their mother whom they miss terribly. Please pray for God's peace and comfort, and that his mercy is evident as the family lingers in this incredibly difficult place.
Christy Bell	ongoing	Prayers for healing for Christy's MS and PRAISE that her yearly MRI and labs are stable with no relapses in over a year. Christy still has cognitive slowing, word finding troubles, significant fatigue and left sided numbness and weakness but improvement from when her symptoms were at their worst.

Allen Payne	ongoing	Allen's mom, Betty is 87 and while very independent, has had to cut back and accept that she can't do as much at her home (she loves her yard) or drive due to frailness and past broken bones. Pray for God's peace and comfort to her as she lives alone, is alone a lot and for comfort as she misses her husband.

Beatrice Cone	10/7/20	Beatrice will undergo brain surgery for continued epilepsy treatment on Friday, October 23. The Cones would love prayer support as they prepare for this next step in her treatment. Specifically that the Holy Spirit would cover them with his loving kindness and transform their worry/grief into gratitude and hope. That their hearts would be able to see how fortunate Bea is to be a candidate for this surgery.
Keenan Bell	ongoing	Keenan's Cystic Fibrosis is also doing great these last 3 months after a second generation CF Corrector medicine (Symdeko) was started. Prior to switching to Symdeko Keenan's lung function was the lowest ever and he was heading toward needing another IV antibiotic round. The Bells are so thankful that Symdeko reverted his lung function back up to baseline with a 10% improvement. The early reports of the 3rd generation CF Corrector that is being studied shows we can expect another 10% improvement in a couple of years when it's approved by the FDA.
